

# FEAR C.P.R. SHIPS

Much Doubt in U.S. Senate Over Anti Railway Section of Bill.

## FINAL VOTE EXPECTED IN THE SENATE TODAY

Britain Has Excellent Opportunity If She Desires to Retaliate at Sea.

Washington, Aug. 8.—The extent to which the Canadian Pacific will control traffic through the Panama canal gave the senate committee for much debate when the anti-railway section of the canal bill was reached last today.

Little objection developed in the present case to the proposed Canadian owned ships engaging in American coastwise trade through the canal. The bill adopted by the senate committee, however, to attempt to restrict the operation of foreign owned railroad ships, proved the subject of wide difference of opinion.

Senator Simmons proposed to strike out all reference to the foreign railroad ships. Senator Brainerd, on the other hand, proposed to strike out adequate control of American coastwise traffic so that the transcontinental railroads could not gain a monopoly of the coast but did not believe the Canadian Pacific could ship goods to the coast. If they were to do so, it would be a serious disadvantage to the American coast.

Final Vote Today.

The senate finished 10:15 a.m. the canal bill except the railway ship section. A final vote is expected tomorrow.

It will not be necessary for Secretary Knox to advise the British government of the action taken by congress in exempting American vessels from the provisions of the act. The British government has already agreed to exempt American vessels from the provisions of the act.

No Change in Administration.

Although there has been no formal statement of the views of the administration in regard to the matter of the house committee on inter-commerce.

A MIRACLE REPORTED.

Crippled Boy Said to Have Been Healed at Shrine of St. Anne.

Quebec, Aug. 8.—A miracle occurred this morning when a crippled boy, aged 10, was reported to have been healed at the shrine of St. Anne.

NEW MONTREAL ELEVATOR.

Montreal, Aug. 8.—A new elevator is being erected at the new \$1,000,000 elevator on the Bickelstein pier, facing the harbor.

SCALED ON STEAM YACHT.

Stena Pipe Blow Out and Chief Engineer and Fireman Suffer Greatly.

Quebec, Aug. 8.—A serious accident occurred this afternoon when the Stena Pipe Blow Out and Chief Engineer and Fireman Suffer Greatly.

Large Northern Alberta Sale.

Calgary, Aug. 8.—A large land sale was put through today when the land was sold on the banks of the Bow River.

SOME BIG FINES FOR SPEEDING AUTOMOBILES.

Vancouver, Aug. 8.—Point Grey municipality, which adj. to Vancouver, has fined several motorists for speeding.

Three owners of cars were to be fined \$200 each for speeding.

Several hundred dollar fines were imposed at a court session which was held in the morning.

## New Information Desk at Telephone Exchange Is Installed And is Working

Number 2 Is Now Available Without Aggravating Delay—211 New Telephones Added in July—New Directory Supplement Issued—Telephones on Branch Exchanges Re-numbered.

A long, black, business-like looking switchboard, two score little red and yellow "spots" and three very busy little girls—such is the new information desk in the central exchange of the telephone department for which Superintendent Griffin has been working so anxiously the last two weeks. The new "Number 2" desk arrived the other day and is now in operation and proving a big success.

This new information desk is a vast improvement over the old one, but was the cause of so many complaints from subscribers who could not get "Number 2." The old desk was fitted with a switchboard which had only two or three lines. When it was in use it was discarded this week. The new one is a practically unlimited capacity, so that it will be very seldom that any difficulty will be experienced in reaching the information desk. Two girls will operate the new desk under ordinary conditions, while three will be on duty during hours. When necessary, it will be possible to arrange for the desk to have four operators at work at once.

All Operators Work Together. Another feature of the new apparatus is that all the operators can work together. That is, any one of them may answer any call. When you ring number nine three little red lights or spots, as they are called, flash in front of or many different operators. As soon as one of the operators answers this call a little red light appears above the white cap, telling the other girls that that particular call is being answered. Under the old system this was impossible as each operator could look after only one call at a time in her part of the desk.

As soon as the new branch exchange is opened the information desk will be divided into two sections and trouble. That is, there will be two numbers and subscribers will call, say "211" when they want information, and some other number when they wish to report some trouble on the line. At the present time there is a great deal of unnecessary work in the information operators, due, apparently, to the failure of the subscribers. In a great many instances subscribers ask number nine to look up numbers for them, that are already in the book, and that of subscribers themselves could just as easily look up the numbers.

211 New Phones Added. Business continues to increase at a great rate in the telephone department. During July there were 241 new subscribers added, and 46 were disconnected, making a net gain in the department of 211 new subscribers. This brings the number of subscribers to date to 4303 and the number of telephones now in use is 4732. During the month the department had to move 213 phones. This includes changing the location of the exchange, the office and home and moving them from one building to another. Superintendent Griffin has decided not to leave a new directory until after the branch exchange in the west end and Newwood are opened. He has had ordered 7,000 supplements to the present directory "Edmonton" and has given to all subscribers. They are

sent, but it is plainly stated in a similar advertisement sent out yesterday. The secretary of the Exchange, A. O. Weimann stated yesterday that in view of the shortage of numbers in the local market, the members of the Exchange had to see how the sale of numbers in the city is affected by more men coming into the city. As a matter of fact some contractors were paying to good men more than the standard rate mentioned in the advertisement.

"There is not a builder in the city," said Mr. Weimann, "who would not be able to employ more men if he were so inclined. The shortage of numbers in the advertisement, but all the plumbers are very busy and more men are not wanted."

Reason for Delay in Installation. It is stated in a well informed circle that the reason why Great Britain has not yet accepted the invitation to participate in the Panama-Pacific exposition site in the failure of the United States to settle the question of the Panama canal toll.

### CIVIL WAR IN TURKEY APPEARS INEVITABLE

Young Turks Will Set Up Capital at Adrianople—Reactionaries May Retain Constantinople and Depose Abdul Hamid as Sultan.

London, Aug. 8.—Near eastern affairs are reaching a grave crisis, according to reports from Constantinople, which say that the Committee of Union and Progress has decided to summon the dissolved chamber of deputies to reconvene at Adrianople, to which city the leaders have already gone. The government has been ordered to march to Adrianople and depose Abdul Hamid as Sultan.

The daily Chronicle's correspondent, who was recently in Constantinople, claims that civil war is inevitable because it is not unlikely that the committee of the rival parliament will force the government to depose Abdul Hamid as Sultan. Abdul Hamid is said to be in a state of great anxiety and is expected to leave Constantinople for Adrianople. The committee of the rival parliament will force the government to depose Abdul Hamid as Sultan. Abdul Hamid is said to be in a state of great anxiety and is expected to leave Constantinople for Adrianople.

Duncan Inquiry to Proceed. Toronto, Aug. 8.—The police commission investigating the activities of the Toronto Police Department is expected to proceed with its inquiry into the activities of the Toronto Police Department. The inquiry is expected to proceed with its inquiry into the activities of the Toronto Police Department.

To Defend American Title. London, Aug. 8.—Harold H. Hinton, a Canadian, is expected to defend the American title in the upcoming competition. Hinton is a Canadian and is expected to defend the American title in the upcoming competition.

GOOD NIGHT'S SLEEP No Medicine so Beneficial to Brain and Nerves.

Living awake nights make it hard to keep awake and do things in daytime. To take "tonics and stimulants" is a sure way of making the situation worse. The only way to get a good night's sleep is to take a dose of the medicine.

It is a bad practice to load up the stomach with a promiscuous lot of food, indigestible food at night because it "tastes" good.

Strength Without Bulk is a requirement of an ideal food for the fastidious before going to bed. The food that is concentrated and that a sufficient amount for all purposes will not distend the stomach, the food that is practically predigested so the organs can, without undue effort, absorb it wholly; the food that contains the tissue-repairing and energy-making elements from clean food grains—that contains the Phosphate of Potash which combines, by vital process, with Albumen to repair the gray matter in brain and nerve centres—that's

## Grape-Nuts

Try a Dish—about four heaping teaspoonsful with cream, and a little sugar if desired, eaten slowly before retiring. If you're hungry, and note how well you sleep and how fresh you feel in the morning.

### MAKE INSTALLATION OF WIRELESS COMPULSORY

This Will Be One Result of Recent International Wireless Congress in London—Two Stations Established on Great Lakes—Security of Operations.

Ottawa, Aug. 8.—It is understood that one of the results of the recent international wireless congress held in London, which was held from August 1 to 10, will be the compulsory installation of wireless stations on the Great Lakes. This will be one result of the recent international wireless congress held in London.

It is recognized that no much progress has been made in the wireless industry since the congress, but it is said that the wireless industry is now in a position to make a great deal of progress. The wireless industry is now in a position to make a great deal of progress.

At the present time many of the wireless stations on the Great Lakes are not equipped with the latest apparatus. The wireless industry is now in a position to make a great deal of progress. The wireless industry is now in a position to make a great deal of progress.

### CARNEGIE APPROVES INCOME TAXATION

Laird of White Star Line Declares Millionaire Should Pay Just Proportion of Income Tax.

London, Aug. 8.—Andrew Carnegie, the great industrialist, has approved income taxation. Carnegie is a great industrialist and has approved income taxation.

It is a bad practice to load up the stomach with a promiscuous lot of food, indigestible food at night because it "tastes" good. The only way to get a good night's sleep is to take a dose of the medicine.

# A HORSE SHOE NAIL

A small thing in itself—but it once spelt the loss of a Kingdom.

It's the little things that count—your first investment, tho' it may be a small one—still it counts in that it forms the nucleus for greater ones.

## COLLEGE TERRACE

As you will see by the map above, this property offers an excellent opportunity for either an investment or a home-site proposition. It faces on the Clover Bar Road and extends back to the river—running alongside of the new Alberta College, providing a splendid view of the building and campus. The throwing open of the Low Level Bridge at the foot of Marjorie Street will bring COLLEGE TERRACE within 1½ miles of the city. Improvements planned here, together with its natural advantages, place COLLEGE TERRACE easily in the front ranks of desirable properties. It will soon become a place of beautiful and high-class homes, assured by a careful building restriction which we have imposed.

Now, this is YOUR invitation. Let us motor you out—or call at the office for our booklet and plans.

ARE YOU INTERESTED?

Prices are from \$350 to \$550 per lot, according to location, and the terms are 1-3 cash, balance over 3, 6, 9, 12 and 15 months.

Invited among the officers of the parade was Lieut. Becker, who is now charged with investigating the loss of the Titanic. His photo is seen at the top corner of the picture.

### AROUND THE CITY

#### LOCAL

J. B. Green, of the real estate firm Hare and Green, left yesterday for Vancouver, Victoria and Seattle.

The daughters and Master of England will meet on Wednesday, August 14th, in the club building hall, corner Main and Broadway, where they will be met by a large number of friends.

The first England will parade at the armory at 3 p.m. Friday in civilian clothes. The men will be decorated only a short time. A full attendance is required. Full band also required to attend.

Robert Knight, formerly superintendent of the street railway, has returned from a holiday trip, and has been named work on assistant to superintendent of the electric light department.

Independent Bureau of the electric light department, has been named to the position of the commissioner to the city, and has been named to the position of the commissioner to the city, and has been named to the position of the commissioner to the city.

The following changes were announced in the License Department of the city: J. B. Green, of the real estate firm Hare and Green, left yesterday for Vancouver, Victoria and Seattle.

There will be a meeting of the City Council, 10th Edmonton Building, on Friday evening, at 8 o'clock sharp, to consider the proposed new city hall, and to consider the proposed new city hall, and to consider the proposed new city hall.

AS TO LOW LEVEL BRIDGE. "Give me to MacIntyre and Scarlett," replied Mr. MacIntyre yesterday morning, when asked if the city contemplated any change in the superstructure of the present low level bridge. Mr. MacIntyre explained that while the city was ready to improve the bridge, they could not do anything until the C.N.R. was ready to improve the bridge.

TEASER BABY ENDED. The yesterday afternoon, Neil Lamont, a man of about 60 years of age, was arrested by a team of police officers, driving a team having a heavy load of goods, and was taken to the city hall, where he was held for a short time.

One of the matters taken up with the city council yesterday was the proposed new city hall, and to consider the proposed new city hall, and to consider the proposed new city hall.

**TO PICK UP DOGS.** The Edmonton Kennel Club has made arrangements with the city to run a special car for the transportation of dogs and their owners to the exhibition grounds Wednesday morning. A sign at each end will indicate the car taken in by friends.

**BUILDING PERMITS.** Among the building permits issued at the city engineer's office yesterday are the following: M. H. Low and company, two houses Twenty-seventh street, \$1250 each.

**IN CASES OF TYPHOID.** In view of the typhoid cases in Calgary, Ottawa and other cities of the Dominion, the health department is requesting in this city during July to cause health examination of all persons entering the city.

**SENTENCED TO TWO YEARS.** Carl H. Ryan, a resident of the city, was sentenced to two years in the provincial prison for the crime of larceny, and was sentenced to two years in the provincial prison for the crime of larceny.

**DEATH OF A BOY.** A young boy, named John, died yesterday morning, and was buried in the city cemetery, and was buried in the city cemetery.

**BOY FOUND DOWN STREAM.** The body of Walter Mason, the boy who was drowned on Sunday, was found in the river, and was found in the river.

**AS TO LOW LEVEL BRIDGE.** "Give me to MacIntyre and Scarlett," replied Mr. MacIntyre yesterday morning, when asked if the city contemplated any change in the superstructure of the present low level bridge.

**TEASER BABY ENDED.** The yesterday afternoon, Neil Lamont, a man of about 60 years of age, was arrested by a team of police officers, driving a team having a heavy load of goods.

**ONE OF THE MATTERS TAKEN UP.** One of the matters taken up with the city council yesterday was the proposed new city hall, and to consider the proposed new city hall.

Then, to add to the congestion, there will be nearly five hundred visiting dentists in the city. Two hundred of these will be taken care of in the dormitories of the university, but that leaves several hundred still to be provided for, and after many have been taken in by friends.

Another feature, and a new one in Edmonton, has been discovered. It was learned yesterday that several speculators are trying to get rooms in the hotels for rent, with the idea of allowing others to use them for the purpose of sleeping in the city.

**IN CASES OF TYPHOID.** In view of the typhoid cases in Calgary, Ottawa and other cities of the Dominion, the health department is requesting in this city during July to cause health examination of all persons entering the city.

**SENTENCED TO TWO YEARS.** Carl H. Ryan, a resident of the city, was sentenced to two years in the provincial prison for the crime of larceny, and was sentenced to two years in the provincial prison for the crime of larceny.

**DEATH OF A BOY.** A young boy, named John, died yesterday morning, and was buried in the city cemetery, and was buried in the city cemetery.

**BOY FOUND DOWN STREAM.** The body of Walter Mason, the boy who was drowned on Sunday, was found in the river, and was found in the river.

## ONLY 7 IN 47 DAIRIES IN THE CITY SHOW PURE MILK

Tests for Amount of Gross Dirt in One Pint of Milk, Made by Milk Inspector During Past Month, Show Some Startling Conditions.

One of the most interesting exhibits at the coming convention of the Dominion Medical association, interesting at least to Edmontonians, is a display showing the purity, or rather lack of it, of the milk supply in this city. This display is in the form of little disks of absorbent cotton pasted on a large piece of card-board. Each disk contains the gross dirt obtained from one pint of milk. Samples from forty-seven dairies in the city were taken for this purpose.

Dr. V. K. Zimka, milk inspector, has prepared this exhibit from his work of inspection in Edmonton during July. In reality it shows the results of this particular class of work for one month. And some very interesting facts in regard to the milk that Edmonton people drink can be learned from the innocent looking little bits of cotton.

Out of the forty-seven samples taken from the milk brought into the city from as many different dairies, there are only seven that can be classed as "almost perfect." That is, in each of these seven pints of milk there is little or no dirt. The remaining forty disks are all colored, some a pale grey, showing signs of dust, and others fairly harmless dirt, others ranging from a shabby brown to almost black.

Three samples show particularly bad conditions. One of these is almost solid with dirt, while the others, even though several pieces of chaff from stalk. The other two have in their star exhibit a dead fly apiece, as well as a lot of dirt. Then there is one specimen that shows strong indications of the presence of alum or formalin, used to "preserve" the milk and so keep it from getting sour.

Of course all the samples are numbered and Dr. Zimka knows from just what dairy it was taken. The owners of the dairy or the dealer who sold the milk where the cows are kept and

milks, will receive a heart to heart talk from the medical inspectors, and it will be hoped that conditions are improved the next time they will have to be closed up.

When the farmers and dairymen drive into the city with their loads of milk they are often met by the milk inspector. He opens one of the barrels and after thoroughly stirring up the milk, dips out one (plastic) and takes it to the health office, where it is tested and examined. In this way the milk coming into the city is carefully inspected several times every month.

One feature of the milk inspection during the past month is that it has proven that practically all of the small dairies dealing in the city are delivering milk free from dirt. The city dairy officials, after being shown some of the bad specimens of milk, acted very promptly. They have ordered a cleaner, which will be installed this week. This machine is a sort of strainer, and the milk will be passed through it, thus making it absolutely pure as far as gross dirt is concerned.

These dairies that have shown the best of pure milk according to the tests of the milk inspector, are Hoffs, Greenwood and Clayton, Herbert, A. Levis, Henshall, J. Corbett and O. B. McKeehan.

## STREET RAILWAY TO SHOW A SURPLUS FOR THE MONTH OF JULY

Is Estimated at \$2,000—Cares Carried Over by Million Passenger Bureau.

Although the charges for operating the street railway during July have not been figured out yet, it is estimated that the surplus will appear as though the department will show a surplus of nearly \$2,000 for the past month.

For the first time in its history the street railway carried over one million passengers during July. The exact figure is 1,047,142, which is nearly double the number carried in July of last year, and is about thirty thousand more than in June of this year. The revenue from passenger traffic is \$42,766 for July, an increase of sixty per cent over the same month last year.

## TWO KILLED, TWENTY INJURED

New York, New Haven and Hartford Train Derailed Near Jericho. Boston, Mass., Aug. 8.—Two persons were injured and 11,114 o'clock this forenoon when a train on the New York, New Haven and Hartford railroad was derailed near Jericho, Mass., on the border of the state of Vermont. The engine, the locomotive, and the first three coaches left the rails. The train was derailed, and the death and several passengers were severely injured.

Redemptorist Fathers Charge. Toronto, Aug. 7.—A new vice-prosecutor of the order of Redemptorists was created here this morning by an order of the superior general, Rev. Patrick Murray, who appoints Rev. Wm. M. D. Brock, rector of the Redemptorist house at St. Patrick's (Toronto) St. Anne's (Montreal), St. Patrick's (Quebec), and St. Peter's (John, N.B.). He is also appointed the father of many laymen to new appointments.

## MINING DISASTER IN GERMANY IMPRISONS LIVES OF 650 MEN

Fire-Damp Explosion Occurs in Pit Near Village of Gerthe.

100 MEN BELIEVED TO HAVE PERISHED

Many of Those Rescued Were Suffering From Severe Injuries.

Bochum, Germany, Aug. 8.—A mining disaster which imperiled the lives of 650 pit men occurred in the Lorraine pit in the vicinity of the village of Gerthe today. Many of the men were rescued, but at a late hour this evening it was feared that more than 100 had been killed.

Twenty-three bodies had been recovered and the rescue parties were unable to enter the gallery in which the fire-damp explosion occurred, where it was believed from 50 to 100 men still were entombed and had almost certainly perished.

A large number of those rescued were suffering from severe injuries, and it was expected that many of them could not recover. The rescue detachments, which did much work at the time of the French mine disaster at Courrières, near Lens, on June 18, 1914, when 1,125 miners were killed, arrived here early this afternoon but were unable to penetrate the mine owing to the flames and poisonous gases. The wives and families of the doomed miners were gathered around the pit head all day, but were unable to learn any definite information.

At 4 o'clock fifteen more bodies had been recovered, making the total known dead at that hour forty.

## GERMANY WOULD ASSUME ROLE OF EUROPE'S BULLY

Dr. Chappie, British Member of Parliament, in City, Talks of German Menace.

## ANGLO-GERMAN WAR A WORLD'S DISASTER

Thinks U. S. Cannot Discriminate Against Other Nations in Regard to Panama Canal.

"The danger of war with Germany is exactly in proportion to the progress made by Germany in the building of armaments. If there should come a time when she can equal or surpass the British navy in power and strength and naval prospects, she would become absolutely intolerable in the European situation. "She would be like a bully in the school with 'unlucky students.' She would all the air with 'Krugger' tea. "Germany has so far as I can see, no cause for war, but that would easily be found by Germany if she was ever in a position to challenge British supremacy."

The above words were spoken with a statesmanlike earnestness and sense of responsibility by Dr. W. A. Chappie, the Liberal member of the House of Commons for Strithling, Scotland, in conversation with a Bulletin reporter, who sought an interview at the King Edward hotel yesterday. Dr. Chappie is now looking over Canadian lands with the intention of investing his capital here.

After looking over all the best districts here Dr. Chappie will proceed to Vancouver, where he will make a selection.

Leaving New Zealand for Canada, Dr. Chappie resided for 20 years in London, New Zealand, where he made stock raising on undeveloped land the reservoir of his investments. He has never bought land in Canada, but he believes that to hold land and do something to develop it is just as injurious to a new country as to an old country. After having purchased undeveloped land he has at once spent money upon it in showing its fitness for sheep and stock raising and has then put settlers upon it.

"I am shifting all my investments from New Zealand to Canada," said Dr. Chappie.

Continuing his discussion of the German menace he said the attitude of the German diplomat is regarded by her naval policy was one of deceiving the outside world. The real thought of Germany on the situation was that Britain had no exclusive right to hold all the strategic points and possess all the valuable territories in the dominion of the world. If Germany was ever able to stand in a position of equality with England, England would cease to be a first class power and would have to tolerate the existence of a second class power, which in England they believe the self-interest of the Britisher would allow himself to run the risk of.

Regarding the outbreak of Lord Balfour's speech, Dr. Chappie said that Lord Balfour was regarded as one of the few fellow countrymen as a little in every other country, but more especially in Germany, in which the talk and dreams of war, Winston Churchill is particularly open to the attack of

even Lord Balfour, because he has displayed such a bold and trenchant spirit, and possibly because he is also young, and a little arrogant. "A war with Germany," said Dr. Chappie, "is something that would be regarded as a world disaster."

Speaker of the House of Commons, Dr. Chappie stated that in his belief it would be a national disgrace in America if she did not give other nations equal consideration in the situation. He said that America was a good sense and her sense of justice and her national honor would not allow her to be the only nation that had been suggested, America must respect her treaties.

Australia made a tactical blunder when she sent out the word the other day that America was being an incubator to Australian shipping if the suggested arrangement was put into operation. Nevertheless Britain had made surrender to America which had made it easy for the canal to be built and had as a matter of fact controlled her share in the canal and one of the terms on which she stood aside was that there should be no national preference.

The view of the Americans who suggested the arrangement was contemptible in the extreme and it is a view which will not be countenanced by the American nation at large.

## RECORD SHIPMENTS OF GRAIN IN AUGUST

Fort William, Ont., Aug. 8.—With another large fleet of elevators leaving their turn at the elevators today there is every promise of the month of August being a record-breaker as far as the grain shipments are concerned. The figures for the month of July, 1912, show a record for the corresponding month during the past eight years. During the month of July a year ago 7,182,437 bushels were shipped.

According to the report issued by Acting Inspector F. Syme, 1,107,721 bushels of grain were shipped in July. This is a record for the corresponding month during the past eight years. During the month of July a year ago 7,182,437 bushels were shipped.

## Billiousness

When the liver refuses to work there is no more health and the worst enemy of the body is the liver. It is the liver that makes the blood and the blood makes the body. It is the liver that makes the blood and the blood makes the body. It is the liver that makes the blood and the blood makes the body.

## Parmalees VEGETABLE PILLS

The files that are now in your kitchen and dining room were once the files of a housewife. They are the files of a housewife. They are the files of a housewife. They are the files of a housewife.

## WILSON'S FLY PADS

Kill flies in such immense quantities as to be almost unapproachable by any other fly killer. The flies that are now in your kitchen and dining room were once the flies of a housewife. They are the flies of a housewife. They are the flies of a housewife.

## A Mouse Chase

After looking over all the best districts here Dr. Chappie will proceed to Vancouver, where he will make a selection.

## NEW YORK POLICE INVESTIGATION IS INVOLVING OTHERS

Evidence Being Adduced Involves High Officials in Blackmailing Operations.

## LIEUT. BECKER DEALT ONLY WITH SMALL FRY

Big Gambling Houses Paid Tribute to Inspectors, Who Kept Close Tab on Them.

New York, Aug. 8.—Cumulative evidence, piling up before the grand jury investigating the police blackmailer, has led today to twelve four or five high police officials and that indictments will soon be drawn. These examined by District Attorney Whitman have furnished much corroborative evidence to the confession of "Jack" Rose, who gave a line of questions upon whom he charged Police Lieut. Becker dealt blackmail.

Several numbers were before the grand jury and the grand jury admitted they had paid blackmail to certain inspectors. One of the witnesses told Mr. Whitman that he had been threatened with death if he went before the grand jury and had information about the police.

**NORWOOD**

There has been such a demand for property during the past few years that it is very hard at the present time to secure a good listing of a property, as by far the larger portion of this has been bought for building purposes and withdrawn from the market. However, we give below a list which are among the best to be had.

1st RL—Lot in Block 13; price \$1-2 cash, 6 and 12.

2nd RL—Lot in Block 22; price terms 1-2 cash, 6 and 12.

## SOME PLANKS OF THE ROOSEVELT PLATFORM

Progressive Party Outlines Many Radical Reforms—Appeals for Support of All American Citizens, Whatever Their Previous Party Affiliations.

Chicago, Aug. 8.—Among some of the planks of the new platform of the Progressive party drawn up and approved at the ball game convention by the followers of Roosevelt yesterday were the following:

Pledge party to provide "a more easy and expeditious method of amending the federal constitution."

Advocate national jurisdiction of problems which have expanded beyond the reach of individual states.

Pledge the party to secure equal suffrage.

Pledge the party to the enactment of legislation limiting campaign contributions and expenditures and providing for publicity thereof. Oppose participation by federal appointees in state or national conventions.

Command "such extensions of the power of the courts as shall leave to the people the ultimate authority to determine fundamental questions of social welfare and public policy."

Pledge judicial reform, believing "that the issuance of injunctions in labor disputes should be prohibited when such injunctions would not apply where no labor disputes existed."

Devote against child labor and for a minimum wage for women, for protection of industrial interests, such as work day and establishment of a federal department of labor.

Urges re-establishment of currency life commission and promotion of the welfare of farmers.

Pledge party to full and immediate inquiry and to immediate action to deal with the high cost of living. Demand national regulation of interstate competition and urge the establishment of a federal commission to supervise interstate industrial corporations, and favor strengthening the Sherman law to insure competition in business and prevent unfair trade practices.

Pledge party to enactment of a patent law that will prevent monopolization. Favor legislation giving the interstate commerce commission power to value the physical property of railroads and demands the abolition of the commerce court.

Condemn the method of leasing government mines through private agencies and urge control thereof by the government alone and oppose the Alaskan currency bill.

Favor government cooperation with manufacturers and producers in extending foreign commerce.

Exclude for prompt development of all natural resources, condemning exploitation, waste and monopolization. Urges reasonable conservation of water power rights heretofore granted.

Insist for good roads, national highways and extension of rural free delivery. Immediate development of natural resources of Alaska and promise to that state equal governmental rights.

Pledge party to immediate preparation of plan to develop "every" of the country, especially the Mississippi, Ohio canal and the Pacific coast.

Insist on complete nationalization of railroads and urge that American railroad-controlled ships be denied the use of the canal.

Express belief in a protective tariff which shall equalize conditions of competition between the United States and foreign countries for all classes.

Denounce tariff revision because the present tariff is unjust to the people of the United States and pledge the party to the establishment of a non-partisan scientific tariff commission.

Condemn Payne-Aldrich tariff bill and the Democratic party's tariff policy as "destructive of the protective system."

Demand immediate repeal of the Canadian Reciprocity act.

Favor inheritance and income tax. Favor international agreement for limitation of naval forces and the construction of two battleships a year pending such agreement.

Favor governmental action in behalf of indigent, a wise and just policy of pensions for soldiers and sailors and the immediate creation of a parolee post.

In conclusion the platform "appeals for the support of all American citizens without regard to previous affiliations."

## WAR BETWEEN MONTENEGRO AND TURKEY LOOMS UP

Interruption of Diplomatic Relations May Arouse the Hot Heads on Both Sides.

Rome, Aug. 8.—War between Montenegro and Turkey is suddenly looming up on the horizon. It was heard here in government circles that the Turkish ultimatum and the Montenegrin reply, refusing to accede to the Turkish demands, would not be followed by a rupture of diplomatic relations, but it is now officially reported that the Turkish minister will leave Cetinje tomorrow. News has also been received that fighting on issues near Colakia on the Fieri-Manastir front. The interruption of diplomatic relations between the two countries is not calculated to appease the hot heads on either side, also it is assumed by the blood that has been shed.

Attempting to Prevent War.

Mr. Krivosky, the Russian ambassador to Italy, who is in Frascati, had today a long conversation by telephone with Minister Dalmati, the general secretary of the department of affairs, both the minister and the under secretary being absent from Rome.

Of all the powers, Russia and Italy are the two which have the most influence at Cetinje and they are striving in perfect agreement with the object of preventing war, which Austria and Austria are exercising pressure at Cetinje for the same purpose.

Mr. Popovitch, the Montenegrin consul at Rome, in an interview yesterday, said that he has little confidence in the capacity of diplomats to stave off a conflict between Montenegro and Turkey.

Has 80,000 Men Ready.

"Montenegro," he said, "has ready on war footing eighty thousand men in the country is organized as five military principles."

"Montenegro territory has been invaded by the Turks, who are seeking to obtain at our expense some compensation for the losses inflicted on them by the Italian, and I am confident they have been subjected to by the Albanians."

In consequence of this Italy will have a good ally. Provi opinion in Montenegro is exasperated and will issue upon complete separation for threats made by Turkey of an invasion of Montenegro by Turkish troops."

IS NOW UP TO CANADA.

West India Colonies Have Ratified Reciprocity Agreement.

On August 1—All of the West India colonies, concerned in the conference of last winter, have now ratified the reciprocity agreement and it only remains for the Canadian parliament to do the same. The agreement will be before parliament as soon as it assembles and ratification will be an early item on the government program.

The disposing of the trade agreement does not clear the way for two other important subjects pertaining to the West India, steamship communication and cable connection. With regard to each of these Canada agreed to negotiate vigorously with the colonies in reaching improvement of present conditions.

With regard to steamship subsidies, the Canadian government has undertaken to considerably increase its subsidies to promote a better service.

Letters have been exchanged and the steamship companies concerned in the matter have been invited to submit a survey of proposals. The entire problem being complicated. There are two main services to arrange for, one from Cuba to Canada, known as the Leeward Islands, the other from Canada to Jamaica.

22 DEMONSTRATION FARMS.

Ottawa, Aug. 7.—With the object of demonstrating to the farmer of the Dominion the most economic manner of getting the best results from the soil, the commission of conservation has chosen farms whose owners agree to be the best producers for illustration purposes.

The commission has in each case chosen farms whose owner agrees to be guided by agricultural experts given by the government.

These experts are P. C. MacVicar, the commission's agricultural expert, and John P. Prier, formerly a part of John Prier, formerly a part of John Prier, formerly a part of John Prier.

The farms for demonstration purposes have already been chosen in the eastern provinces and both Mr. MacVicar and Mr. Prier are now in the west and Mr. Prier are now in the west and Mr. Prier are now in the west.

In the prairie provinces, in Ontario there are eight farms, in Quebec six and in New Brunswick, Prince Edward Island and Nova Scotia, three each.

This announcement heralds the dawn of a new basis for values in merchant tailoring in Greater Edmonton. It means that thousands of fastidious men who have worn ready-made clothing of indifferent fit may from now on have their

## Clothes Made to Measure at lower cost

It means an opportunity for the economical man to dress well, and for the well dressed man to economize.

No other store in the Dominion can show so complete an assortment of exclusive patterns of fine imported wools. No other tailor can produce better styles and workmanship at any price (in fact, very few produce as good), and there are none so well equipped as we to produce clothes faultless in style, fit and quality. We have every new shade, weave and pattern known—YET.

Tomorrow, Saturday, August 10th and all next week, we will place on sale all \$35, \$40 and \$45 suits or overcoats at the modest price of

**NO HIGHER MONEY BACK IF NOT SATISFIED**

You may have your choice of any one of our large assortment of Fancy Cashmeres, Scotch Tweeds, Back and Blue Serges, Rich Diagonals and Fancy English Worsteds in stripes and plaids.

We absolutely guarantee a perfect fit. Come and assist us to make Saturday our banner day.

## "Too Good to be True" says the average man

But it is true! We control our own mills.—We make our Suits than any 500 tailors.—We sell direct to you, doing away with all surplus profits.—We are here to stay. Tomorrow at 9 a.m., we will open our doors to the Edmonton public. We invite you so come in and inspect our immense display of smart fabrics.

We positively have no connection whatever with any other store in the city.
